

Web based Vehicle Tracking & Mobile Data Solutions

SAMPLE SCREEN DISPLAYS. "The History Window."

- Shows where vehicles have been using a "snail trail" and "pop up messages". This can be displayed using directional arrows or coloured icons relative to the time of day.
- History will display times of any starts, stops, length of stops and any ZOIs entered or left.
- Single or multiple vehicle journeys can be analysed at the same time.
- Can be used to check best routes taken.

Knowledge is Power - Efficiency is Revenue - Control is Profit
