Powerful yet easy to read reports generated from information gathered by the system software. A complete suite of "standard" reports that should cater for most eventualities.

- Journey reports showing time left, journey time and distance, arrival time and time on site.
- Daily logs of first and last movement, distance and time travelled and number of stops made and time idling.
- Congestion charge reports showing time and location entering the zone, time inside the zone and time and location of departure.
- Zone of interest reports.
- Ad hoc generation when you want a report.
- Scheduled emailing of regular reports to one or many recipients.
- Custom written reports if required.

Knowledge is Power - Efficiency is Revenue - Control is Profit
